Boat Description

2025 Jeanneau Sun Odyssey 380 | 3-Cabin, 2-Head Layout with Bow Thruster & In-Mast Furling

The 2025 Jeanneau Sun Odyssey 380 combines sleek styling, responsive performance, and spacious comfort in a modern cruising yacht. Designed by Marc Lombard with Jeanneau's team, this model offers exceptional volume, innovative features, and effortless handling.

Her solid fiberglass hull with a scow bow, hard chines, and twin spade rudders ensures stability, control, and added interior space. Powered by a Yanmar 40 hp diesel with shaft drive and aided by a bow thruster, she makes marina maneuvering simple. The fractional rig carries an in-mast furling mainsail and furling genoa, with spinnaker gear included for versatility under sail.

Below deck, the three-cabin, two-head layout delivers both comfort and practicality. The L-shaped galley features a refrigerator, oven, and twin sinks, while clever storage solutions include dedicated wine storage beneath the floorboards. Natural light and ambient lighting enhance the interior, supported by additional comforts such as fans in each cabin, a hot water cockpit shower, and a Fusion sound system with interior and cockpit speakers.

Her electronics package is equally comprehensive, featuring Raymarine GPS plotter, autopilot, VHF, and an i70 multifunction display for confident navigation. This yacht is fully prepared for extended coastal cruising and beyond.

Currently lying in Pula, Croatia, this Sun Odyssey 380 is ready for inspection. Contact Williams & Smithells International today for full details or to arrange a viewing.
