The condition or level of safety equipment on board is not to be negotiated on following survey. It is likely to be listed by most surveyors but is not structural or an integral working part of the vessel and is not to be used to further negotiate the price down after survey. We strongly suggest that for your own personal safety that when purchasing a yacht you provide new safety equipment rather than relying on second hand gear.

Should you become the new owner of this yacht then the responsibility to re-register or update official bodies for items such as EPIRB, VHF, MMSI or AIS becomes yours.

CommentsBought by the current owners in Mallorca 2013.

Since then they have cruised around the Balearics and the Mediterranean coast of Spain until 2014 where they then sailed leisurly back to Mallorca, Ibiza, Menorca moving slowly over to Sardinia, Lipari islands, Sicily, Italy. Next onto Albania and Greece where they have spent the last decade exploring Corfu, the Ionian islands, Peloponnese, Aegean Sea and Crete. Amazing and wonderful seafaring experiences making many good friends.
